How was the levy distribution determined ?

Council identified that the majority of property owners live within the boundaries of the Municipality of Louise and therefore are eligible to make payments for this local improvement based on their dwelling unit. The other classifications identified by the Municipal Board Order are extra to dwelling units so the additional financial burden related to these parcels was calculated accordingly. Of the \$1,500,000 borrowing, Council chose to allocate \$1,250,000 to dwelling units and \$250,000 to other parcels.

Method and rate of calculating the Local Improvement tax – The method of taxation to be used to calculate the Local Improvement Tax will be an amount per parcel of land (as per the assessment roll list). The per parcel rate will be based on

1. the number of residential dwelling units on each parcel upto 3 dwelling units and for a parcel with 3 or more dwelling units a per parcel rate
2. a per parcel rate for the residual lots

There are 804 Class 10 residential parcels with 1 or 2 dwelling units and 13 Class 10 residential parcels with 3 or more dwelling units. *THAT the Municipality of Louise draft proposed changes to By law 2023-04 by adding the following properties to the Local Improvement Area to be taxed under this By law: Residential 2 (Class 20), Farm properties (Class 30), Institutional properties Class 40), Commercial/Other properties (Class 60) and vacant residential lots within the Municipality and,
The Board will reconvene the hearing on a date to be determined to give all interested parties an opportunity to be heard.*

It is required by legislation to publish a public notice for all affected taxpayers, hold a public hearing and pass a By law after receiving Municipal Board approval with the above information based on the requirement to borrow \$1,500,000 to finance the project. Once the project is complete and successful grants, donations along with public and corporate fundraising is known, an amending By law is passed which will identify the value of the debenture/borrowing needed. The 'taxation method' values will be adjusted accordingly and the public will be advised of the 'cash' option or the 'finance' option. Please note, this occurs when the project is complete.
